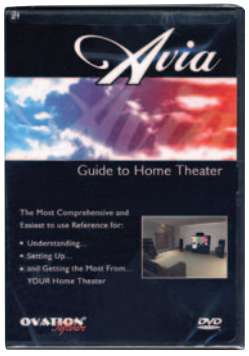
Avia DVD Calibration Disc



AVIA combines tutorials with professional quality test signals for fully calibrating and testing audio and video systems. Simply sit back and watch the live video presentation or get involved and select in-depth coverage of specific topics. You select the tutorial depth or calibration tool. Adjusting your audio and video system for maximum performance is easy with AVIA's step-by-step instructions. Professionals (or those who want to learn more) can directly access advanced calibration signals with on-line explanations. You'll want to use AVIA again and again to keep your system in top condition. **Features: Easy navigation:** On-screen menus make navigation intuitive. Just select a topic or calibration tool for instant access. **Video presentation:** AVIA's informative live video presentation tells you about home theater. You'll learn the basics about signal sources, processors, speakers, displays, making connections, arranging your viewing environment, and calibrating your system. **Audio calibration:** AVIA DVD provides highly accurate and innovative audio signals for setting channel balance, sound reference level, six channel phasing, and subwoofer crossover. Advanced users can choose among additional test tones for additional tests such as checking voice matching, frequency response, room resonance, and ambiance effects. **Video calibration:** AVIA DVD guides you step-by-step through the basic five user level video adjustments. New video test patterns were developed especially for AVIA DVD to increase accuracy and ease of use. Live video demonstrations show you exactly what to look for while making adjustments.

D-VHS NTSC Home Theater Set-Up

"Digital Video Essentials", the long-awaited follow-up to the best-selling "Video Essentials", is the most advanced program for calibrating today's high-definition displays. Featuring the visual work of renowned cinematographer Allen Daviau ("E.T.-The Extra Terrestrial", "Empire Of The Sun", "The Color Purple"), "DVE" is the one calibration program that will render all of the other existing calibration discs obsolete. This is an essential resource for calibrating all high-definition displays when the source machine is a JVC HM-DH30000, HM-DH40000, or Marantz MV8300 HD digital VCR.

TERK TECHNOLOGIES Volume Regulator

The TERK TV Volume Regulator (VR-1) delivers a consistent, quality audio level while channel surfing or changing between A/V sources, without adjusting the volume. The VR-1 features Advanced Digital Signal Processing technology that automatically adjusts sound levels without introducing additional noises. In the VR-1, Noise Reduction technology automatically reduces any "hiss" already present in audio. This clarifies whispers and articulates quiet scenes to a level that you can enjoy. Its Dual-Band Automatic Gain Control adjusts bass and treble signals separately for improved dialog. With response as quick as .002 seconds, the VR-1 delivers consistent audio levels when sudden loud noises such as explosions are present. The VR-1 is easy-to-install and is compatible with any A/V device. Its compact design allows for out-of-sight installation. Consumers adjust the volume as much as twenty five times an hour. TERK's TV Volume Regulator allows you to focus on the entertainment and not the volume control. Once installed, you can set the VR-1 to your desired level and enjoy quality audio. The VR-1 automatically matches the volume of commercials to the program level, eliminating those sudden, loud noises that disturb the household or neighbors. By making dialog more intelligible and reducing blaring music or sound effects, the VR-1 is a great solution for the home theater enthusiast.

sima Digital Video Effects Mixer

For professional quality mixing results without professional studio prices. Digital signal processing maintains the integrity of video signals keeping down "noise" while producing vibrant colors and crystal clear picture quality. Use strobe, mosaic, paint, still and negative effects to maximize the impact of your images on both A and B channels. Select the size and position of special effects areas with joystick accuracy. Create PIP windows and use the joystick to move location on the screen. Circle, bar, cross-hatch, corner and wedge wipes along with fade to black and fade to white effects. You can pre-set the speed of wipes and fades for one-touch automatic control. Use the chroma key (blue screen) or the luminance key (black screen) to isolate images and superimpose onto other scenes. Four inputs: Two audio/video inputs and two S-video inputs give editorial flexibility and increase options.

TERK TECHNOLOGIES Universal Remote Control Extender

•Extends the range of any remote control and operates through walls and floors from up to 120' away •Free standing units works with most remote controls and A/V components •Installs easily and is expandable **Includes:** •Remote transmitter and receiver, AC adaptors and IR blaster cable •Mfr. #LFIRX

Order#	(ea.)
80-5703	$28.95

X10 PRO Powermid™ IR Extender Set

The Infrared Remote Control Extender includes one transmitter and one receiver. The transmitter receives signals from any infrared remote control and converts them to wireless (RF) signals. These signals are transmitted to another location in the home and received by the receiver which converts the signals back to identical infrared signals to operate your TV, stereo, CD player, cable converter, etc. This lets you control all your audio and video products using your existing remote controls, from anywhere in the home! Plug a #RX569 extender into the back of the receiver if you want to place the receiver on top of a TV or stereo etc. (instead of in front of it).

Visit www.mcmelectronics.com for complete specifications.

Order #	(1-4)
SHL4100	$12.95

UNI TONE Lightweight Headphones

This is the exact same headphone seen with other "brand names", only for half the price. 27mm diaphragm provides 20Hz~18KHz frequency response, outstanding performance for the dollar! Attractive retail package, and low quantity price makes this a great resale or promotional item. The attached 4' cord is terminated with a standard 3.5mm plug. **Specifications:** •Impedance: 32ohm •Sensitivity: 101dB

Order #	(1–2)	(3–9)	(10–up)
35-1145	$3.99	$3.79	$3.39

UNI TONE Lightweight Headphones

Don't let the small size or low cost fool you. Unlike typical inexpensive models of this type, which use 15mm or 27mm diaphragms, these use 30mm mylar drivers with isotropic ferrite magnets. The result is full 20Hz~18KHz frequency response, unheard of in headphones in this price range. The attached 4' cord is terminated with a standard 3.5mm plug. **Specifications:** •Impedance: 32ohm •Sensitivity: 106dB •Display packaged for resale

Order #	(1–3)	(4–9)	(10–up)
35-1140	$4.39	$3.80	$3.29

PRO-LUXE Lightweight Headphones

Perfect for personal stereo or multimedia applications. Attached 5' cord enters from only one side, instead of both, making it much easier to keep out of the way and untangled. Wide, adjustable headband provides comfort while holding unit securely in place. 30mm diaphragms provide frequency response expected of models of over twice the price. The cord is terminated with a standard 3.5mm plug, and ¼" adaptor is included. **Specifications:** •Frequency response: 20Hz~18KHz •Impedance: 32ohm •Sensitivity: 118dB •Display packaged for resale

Order #	(1-3)	(4-9)	(10-up)
35-1135	$4.99	$4.62	$4.42

Lightweight Headphones

SONY Lightweight Open-Air Headphones

•Listen to your music almost anywhere! These lightweight headphones are excellent for use in your living room or while traveling, due to their compact design and quality construction •30mm driver units for deep bass •Impedance: 24ohm •#MDR-210TV includes in-cord volume control

Cartridges/Styli

DJs all over the world claim very high demands on their professional equipment, among which cartridges "plays" their decisive part by realizing the artistic scratching-back-cuing and mixing work, as a big part of the show. Reliability and robustness is vital, when the cartridges night after night will have to withstand these demands in environments with extreme sound pressure and vibration. Many years of experience from producing cartridges, and a close contact to customers have now resulted in Ortofon versions directly addressed to the user by name.

Order #	Model #	Color	Frequency Response	Tracking Grams	(1-9)	(10-up)
A. Cartridges						
40-1380	Concorde Pro S	Black	20~18KHz	3~5	$92.25	$84.46
40-1395	Concorde NiteClubS	Yellow	20~22KHz	2~5	111.10	99.99
B. Styli						
40-1400	Stylus Pro S	Black			27.78	25.49

Display Boxes

•Convenient plastic boxes for resale purposes •Dimensions: 1¾" (W) x 2⅛" (L) x ¾" (D)

Order #	(1-9)	(10-24)	(25-49)
21-450	$0.53	$0.43	$0.39

Black Plastic Head Shell

•Universal replacements for Japanese type plug–in tone arms •Top quality construction with lead wires

Order #	(1-9)	(10-99)	(100-up)
39-130	$5.29	$5.14	$4.93
